What is Rocky Ridge?

Rocky Ridge Trucks is a company that customizes trucks and SUVs, so they feature lifted suspension systems and larger wheels. These vehicles are redesigned to feature bold style and expertly tuned handling when off the road.

In addition to conquering nature, Rocky Ridge Trucks are designed to drive on the road the same way they would at factory specifications. You won't encounter any change in handling moving from dirt to pavement as driving these trucks is nothing if not smooth.

This custom truck company has been building these vehicles for over 30 years, meaning they know their way around a suspension system. When you drive an official Rocky Ridge Truck, you'll experience a finely tuned ride that's perfect for handling nature's biggest challenges.

Why Choose Rocky Ridge Trucks?

There's a lot of extra functionality that comes with driving a lifted truck, and Rocky Ridge provides lift kits that are well suited for any driving condition. Lifting allows your vehicle to give you a higher seating position while also providing a better ground clearance for off-roading. The added height also opens you up for larger wheels, making ruts easy to roll over.

Overall, when you want to make sure that your car is fully prepared to drive along dirt and mud, you want a lifted suspension system. However, when you want to make sure your lifted suspension system is tuned to drive anywhere, you want to choose a Rocky Ridge vehicle.

Nissan TITAN XD Models

The Nissan TITAN XD is a large, robust truck, but put it in the hands of Rocky Ridge and you have a vehicle capable of anything. This truck comes standard with a large 5.6L V8 engine, which can produce up to 390 horsepower and 394 lb-ft of torque. This powertrain is able to give drivers up to 11,680 pounds of towing capability.¹

Drivers also have the option to choose a Cummins® 5.0L V8 Turbo Diesel for their powertrain. This engine gives us up to 310 horsepower and 555 lb-ft of torque for some exceptional capabilities. Plus, with a maximum towing potential of 12,430 pounds, you'll be well equipped for any hard work.¹

Rocky Ridge brings us three versions of the Nissan TITAN XD, which builds off of this strong baseline. Each of these trucks come with a 6-inch Rocky Ridge Suspension Lift Kit with 2.0 Nitrogen Charged Rear Shocks. Additionally, these vehicles are tuned with Four Wheel Alignment, Road Force Balancing, and Hypertech System Calibration.

In addition, all Rocky Ridge versions of the Nissan TITAN XD are equipped with 20-inch Off-Road Wheels and 35-inch Mickey Thompson ATZ P3 Tires.

Nissan TITAN XD Stealth

To upgrade the Nissan TITAN XD for the Stealth model of this truck, Rocky Ridge set out to give this truck a stylish confidence that owns the road. This truck is also designed with some unique features, including a Vengeance Low Profile Front Bumper and a 20-inch Rigid Radiance LED Light Bar for some added visibility when winching.

Speaking of winching, this truck comes with a Winch Bumper Upgrade that adds some nice utility to this truck. The Stealth version of the Nissan TITAN XD exudes restrained strength and utility that gives it a confident aggression you'll see with one look at this vehicle.

Nissan TITAN XD K2

For the Nissan TITAN XD K2, it has been equipped to tackle nature at its toughest. Named after the "Second Tallest Mountain in the World," this truck is designed to handle weather with a confidence that defies the elements.

This truck uses standard Black Ceramic Exhaust Tips and a Rocky Ridge Performance Muffler for added style as well as a more efficient exhaust system.

Nissan TITAN XD Altitude

For the Nissan TITAN XD Altitude edition, drivers will be treated to some extra convenience with a standard powered Stainless Side Step system. In addition to providing superior lift and handling, you'll have convenient and attractive side steps giving you a way down.

Nissan TITAN Models

When it comes to versatility, the Nissan TITAN is designed to be suitable for a variety of purposes, from working to traveling to a campsite for the weekend. With a standard 5.6L V8 engine, you'll be equipped to generate 390 horsepower and 394 lb-ft of torque. This truck is able to tow up to 9,660 pounds with ease using this engine.¹

Nissan Armada

When you want a vehicle that can bring a group of people along with you on a trip, you want to have a full-size SUV with you. The Nissan Armada is a large vehicle that features three rows of seats with enough seating for eight people.

This SUV is also a great choice for large camping groups due to its available maximum towing capacity of 8,500 pounds.¹ There are also unique safety features, such as the Intelligent Rear-View Mirror. This feature uses a camera to display what's behind you on your rearview mirror when your cargo or people are blocking your view.

Nissan Armada Z3

If you've ever wanted to take the Nissan Armada off the road, Rocky Ridge has a response for you. The Nissan Armada Z3 is designed with a 3-inch Suspension Lift Kit that enhances its ground clearance for traversing off-road obstacles. This vehicle will also be upgraded to use standard 20-inch Off-Road Wheels to glide over ruts and potholes.

In addition, this SUV will also receive standard tuning, including Road Force Balancing and Four Wheel Alignment. Finally, drivers will have a Rocky Ridge Tailgate Emblem with a Rocky Ridge windshield banner and a choice between a black or stainless exhaust tip.
